

Echino congress 2010 - Nancy, France / December 8th, 9th / SESSION : A = epidemiology in wildlife and pets B = human epidemiology C = control strategies							
Date	Time	Session	Title	Speakers	Affiliation	Country	
Wednesday - 08/12/2010 - Morning	07/12	7:30 pm	welcome cocktail at the Douëra – Malzéville				
		9:00-9:30 am	-	Official opening	-	-	-
		9:30-10:00 am	A	ECHINOCOCCUS MULTILOCULARIS IN ANIMALS: GEOGRAPHICAL DISTRIBUTION AND HOST SPECIES	Romig T.	Institute of Parasitology University of Hohenheim	Germany
		10:10-10:25 am	A	<i>Echinococcus</i> SPP. Found in carnivores in Latvia	Bagrade G.	State Forest Research Institute "SILAVA", Latvia	Latvia
		10:30-10:45 am	A	Helminths of red foxes (<i>Vulpes vulpes</i>) and raccoon dogs (<i>Nyctereutes procyonides</i>) in Lithuania	Sarkunas M.	Veterinary Academy	Lithuania
		10:50-11:05 am	A	<i>E. multilocularis</i> in final hosts in Poland – results of ten years survey	Gawor J.	Institute of Parasitology	Poland
		11:10-11:25 am	A	Monitoring of the prevalence of EM in red foxes in Poland.	Karamon J.	National Veterinary Research Institute in Pulawy	Poland
		11:30-11:50 am		COFFEE BREAK and poster presentation			
		11:50am -12:05pm	A	Ten-Year of <i>Echinococcus multilocularis</i> occurrence in Slovakia	Miterpakova M.	Parasitological Institute	Slovakia
		12:10-12:25 pm	A	EM epidemiology in flemish Belgium	Vervaeke M.	Policy Advisor Wildlife Epidemiology & Wildlife Management	Belgium
		12:30-12:45 pm	A	<i>Echinococcus multilocularis</i> in Germany	Schwarz S.	Federal Research Institute for Animal Health	Germany
		12:50-1:05 pm	A	Large scale screening of red fox intestines in search of <i>E. multilocularis</i> in France.	Combes B.	Entente Rage Zoonoses (ERZ)	France
		1:10-1:25 pm	A	Domestic dog situation for <i>E. multilocularis</i> in different endemic areas in France	Umhang G.	ANSES-Nancy	France
Wednesday - 08/12/2010 - Afternoon		1:30-2:45 pm	LUNCH				
		2:45-3:15 pm	B	CURRENT FACTS AND TREND IN HUMAN AE	Gottstein B.	Institute of Parasitology University of Bern	Switzerland
		3:25-3:40 pm	B	Epidemiological trends of human alveolar echinococcosis in Franche-Comté from 1980 to 2010	Giraudoux P.	WHO-CC, Chrono-environnement, University of Franche-Comté	France
		3:45-4:00 pm	B	Human alveolar echinococcosis in France, update 2010	Grenouillet F.	WHO-CC, Chrono-environnement, University Hospital Jean-Minjoz	France
		4:05-4:20 pm	B	Serological evidence for human alveolar echinococcosis in Slovenia (2006-2010)	Šoba B.	Institute of Microbiology/Immunology, University of Ljubljana	Slovenia
		4:25-4:45 pm		TEA BREAK			
		4:45-5:00 pm	B	<i>Echinococcus multilocularis</i> in the netherlands: what about the human situation?	Kortbeek T.	National Institute of Public Health and the Environment	The Netherlands
		5:05-5:20 pm	B	Human alveolar echinococcosis in Switzerland 1956-2008	Schweiger A.	University of Zurich	Switzerland
		5:25-5:40 pm	B	Alveolar echinococcosis emergence in patients with immune deficiency: what is the epidemiological impact	Vuitton D.A.	WHO-CC, FrancEchino network, University of Franche-Comté	France
		5:45-6:00 pm	B	In vitro screening for new compounds against <i>E. multilocularis</i> metacestodes identifies anti- echinococcal activity of mefloquine	Hemphill A.	Institute of Parasitology, University of Bern	Switzerland
		6:05-6:20 pm	A / B	Epidemiological human situation and studies in foxes in Austria	Glawishnig W.	Agency for Health and Food Safety	Austria
	6:30 pm		DEPARTURE FOR WELCOME EVENING AT LUNEVILLE CASTLE				

Echino congress 2010 - Nancy, France / December 8th, 9th / SESSION : A = epidemiology in wildlife and pets | B = human epidemiology | C = control strategies

Date	Time	Session	Title	Speakers	Affiliation	Country	
Thursday - 09/12/2010 - Morning	9:00-9:35 am	A	- GENETICS AND METHODOLOGY INTRODUCTION - Phylogeny and genotyping studies in Cestodes (<i>Echinococcus</i> and <i>Taenia</i>) to trace back their molecular evolution history	Knapp J.	Chrono-environnement	France	
	9:35-09:50 am	A	Genetic diversity of <i>EM</i> in Hungary inferred by multi-locus microsatellite Analysis	Casulli A.	Departement of Parasitic and Immunomediated Diseases	Hungary, Italia	
	09:50-10:00 am		QUESTIONS				
	10:00-10:15 am	A	Optimization of PCR assays for the spécific détection of <i>E. granulosus</i> (G1 Genotype), <i>E. multilocularis</i> , <i>E. shiquicus</i> DNA extracted from tissue and canid faecal samples	Boufana B.	University of Salford, Manchester	United-Kingdom	
	10:15-10:30 am	A	Segmental Sedimentation and Counting Technique (SSCT): an adaptable method for qualitative diagnosis of <i>Echinococcus multilocularis</i> in fox intestines	Woronoff N. Boué F.	ADILVA ANSES-Nancy	France	
	10:30-10:40 am		QUESTIONS				
	10:40-11:00 am		COFFEE BREAK				
	11:00-11:30 am	C	CONTROL OF <i>ECHINOCOCCUS MULTILOCULARIS</i> : EPIDEMIOLOGICAL AND STRATEGIC CONSIDERATIONS	Hegglin D.	Institute of Parasitology University of Zurich	Switzerland	
	11:40-11:55 am	C	Scientific Opinion of the AHAW, 18th of January 2007	Have P.	EFSA	Europe	
	12:00-12:15 pm	C	Rural settlements – A habitat for foxes and the fox tapeworm ?	Janko C.	University of Munich	Germany	
	12:20-12:35 pm	C	Fox defecation behaviour in relation to spatial distribution of voles in an urbanized area: An increasing risk of transmission of <i>E. multilocularis</i>	Robardet E.	ANSES-Nancy	France	
	12:40-12:55 pm	C	Capability of <i>Echinococcus multilocularis</i> to persist within fox home ranges of increasing sizes depending on vole distribution and fox behaviour	Quintaine T.	2C2A-CERFE University of Reims	France	
	1:00-1:15 pm	C	Demonstrating freedom from <i>Echinococcus multilocularis</i> in Sweden, Norway mainland and Finland	Whalstrom H.	National Veterinary Institute	Sweden	
Thursday - 09/12/2010 - Afternoon	1:30-2:45 pm		LUNCH				
	2:45-3:00 pm	C	Increasing risk of human alveolar echinococcosis in the Netherlands and possible control options	Takumi K.	National Institute for Public Health and the Environment	The Netherlands	
	3:05-3:20 pm	C	Succesful long time baiting campaing against the fox tapeworm (<i>Echinococcus multilocularis</i>) in Southern Bavaria	Koenig A.	University of Munich	Germany	
	3:25-3:40 pm	C	Urban control of <i>Echinococcus multilocularis</i> in France	Comte S. Raton V.	Entente Rage Zoonoses (ERZ)	France	
	3:45-4:15 pm		TEA BREAK				
	4:20-4:40 pm	A	WORKSHOP A CONCLUSIONS	Pozio E. Giraudoux P.			
	4:50-5:10 pm	B	WORKSHOP B CONCLUSIONS	Bresson-Hadni S. Kern P.			
	5:20-5:40 pm	C	WORKSHOP C CONCLUSIONS	Boué F. Torgerson P.			
	5:50-0:00 pm		FAREWELL PARTY IN NANCY CITY HALL
